

## Botulinum Toxin (Muscle Relaxing Injections)

# Fee Guide

**New patients** - A consultation is required prior to treatment. This is charged at £30 and is not redeemable against any subsequent treatment.

**Existing patients** - If it has been more than 6 months since your last appointment, another consultation will need to be arranged. In this case, the consultation fee will be deducted from the cost of your treatment.

*Please note, the 6 month consultation requirement applies only to muscle muscle relaxing injections and does not apply to any other treatments.*

## More Information

### Please Note

Occasionally there is a supplement charge for males due to having genetically stronger muscles. We try to keep our pricing fair, and will not add the charge if it is not necessary. This can be determined at your consultation by carrying out an assessment.

### Additional Information

When treating the forehead it is advisable to treat the glabella region too. This is to avoid heaviness to the brows and would be classed as 2 areas.
